---

As thinking Christians, we must never down play the vital importance of our democracy and election. We as Christians have an utmost responsibility to vote as a good steward with Christian conviction and conscience. However, we must never believe that a political conquest will shelter ultimate and or any lasting peace. We need not a radical political crusade, but a biblical centered, Christ exalating, truth defending, God fearing, Spirit illuminated, error refuting, passion ignited, world rejecting protest! That is a call back *to* and commitment *to* let God's words speak. At the heart of the debate that rages around the world is abortion: Is it really a matter of life and death?

The radical pro-abortion movement has sown a culture of death. It attempts to destroy and to deny the sanctity of life, and the consequences are now very clear to see. I want to make known that this is exactly what happens when a society jettisons the moral code which is based on objective truth. That truth is this - every human is an expansion of the Lord's common grace, and an image bearer of God. As Christians, let us remember that there is no middle ground on this issue. The Bible never teaches 'middle-ground', your saved or you are not saved. In philosophy it's called the *Law of the Excluded Middle*. Jesus used the *Law of the Excluded Middle* in Matthew 12:30," He who is not with Me is against Me." The bare teeth of the proabortion movement and the death grip of the Democratic Party amounts to the murder of an unborn child.

Period. The reality is, this is the new moral indicator of the Democratic Party heading into the presidential election. They are the party unwilling to protect the lives of babies born alive. As Christians, let us remember every life is precious (Jer. 1:4-5, Luke 1:26-38, Psalm 139:13-16).

The real issue is much deeper than abortion, abortion is only the symptom of really a much deeper problem. The real issue is a hatred for God and a neglect of His Holy Law. A society that cares more for cats and dogs than babies in the womb has abandoned conscience. The difference between the welfare of humans and animals stems back to the book of Genesis. Humans were not made *ex nihilo* in the way that animals were. The first man was fashioned out of the dust, and God breathed into him the breath of life (Gen. 2:7). That is to say, God made us in His image (Gen. 1:26). That statement was not made to any other animal. The Bible teaches we did not evolve by millions of years of death, disease, and bloodshed; we are not large animals. We are special because we are made in God's image. We are fallen from that image, yes, but that image still resides and sets us apart! God's word is over the government and it teaches that our humanity began at the moment of conception. It is for that reason that we oppose abortion, because it is a flat-out denial of the humanity of the unborn baby. As Christians this must determine who we vote for. It doesn't really matter if you don't like his personality (I may not like the personality of my physician, but if he helps heal me .... Who really cares?) **Christians**

**stand up for the un-born. VOTE PRO-LIFE!**
